# SECTION 2, SUBJECT INDEX

This subject index follows the format of the National Library of Medicine's *Index Medicus*. Headings have been added.

Entries take this form: volume and number, senior author, first page of article. For example, 17:6 Vogt (1015) refers to the article "Absinthe: Behind the Emerald Mask," by D. D. Vogt and M. Montagne, found in issue 6 of this volume, beginning on page 1015. From this section of the index, reference can be made to Section 1 for the full title and authors of a particular article.

All original contributions to *The International Journal of the Addictions*, Volume 17, are indexed. Book reviews and communications are not included.
